EDUCATION

B.S., Graphic Design
Portland State University
Dec 2017, *summa cum laude*

LaunchCode 101
Apr 2017–Aug 2017

TECHNICAL SKILLS

- » HTML
- » CSS, Sass, SCSS
- » JavaScript
- » jQuery
- » PHP
- » Git, GitHub, Bitbucket
- » WordPress (Timber/Twig)
- » Craft CMS
- » Shopify
- » Processing
- » Sketch
- » Adobe CC: Photoshop, Illustrator, After Effects, InDesign

COMMUNITY WORK

- » Design Week Portland communications team (2016–present)
- » Director, Portland State Friends of Graphic Design student group (Sept 2016–Sept 2017)
- » Coordinator for Portland State Show & Tell weekly visiting designer lecture series (Dec 2016–May 2017)

EXPERIENCE

JUNIOR DEVELOPER

Fuzzco, Jan 2018–Jan 2019

Front-end development with Shopify, WordPress and Craft CMS.

- » Led front-end development for three websites
- » Co-developed five websites, and assisted other developers as needed on their builds
- » Handled client communication for several of my projects, including organization of feedback after QA rounds
- » Maintained and fixed bugs for legacy websites
- » Updated READMEs and documentation
- » Built Shopify template to reduce development time for e-commerce projects

INTERNSHIPS

Laundry Studio, Surface Design, Jan 2017–May 2017

Graphic Means Documentary, Feb 2016–Aug 2016

LIVD, Art & Design Publication, Jan 2016–Sept 2016

Responsive web development, graphic and surface design, design for promotional materials, event coordination, and social media strategy. I discovered I was most passionate about web development while in these varied roles, and started the LaunchCode bootcamp at the end of my last internship while at Portland State.

FINANCIAL ANALYST/SUPERVISOR

Epiq Systems, Jan 2008–Dec 2015

Analysis of complex data sets and project management for class action and bankruptcy distributions.

- » Honored with employee of the year award in 2011 for sustained excellence and depth of commitment to company values
- » Created a disbursement plan and was lead coordinator for Epiq's first disbursement exceeding a billion dollars
- » Developed formulaic Excel workbooks to automate repetitive tasks, resulting in reduced labor costs and employee errors
